FAST IN GRIP OF BLIZZARD

Heavy Snowfall Reported in Kansas, Missouri And Southwest

WINTER IN N. DAKOTA

Easter Parade in Many Cities Spoiled by Flakes of Snow—Gloomest Easter in Many Years

Kansas City, Mo., April 5.—A blizzard raged all last night over Kansas, parts of Missouri and the Southwest and continued unabated yesterday.

Concordia reported drifts of snow from five to six feet deep.

Four trains, one a passenger train, were stalled in snowdrifts on a branch of the Atchison, Topeka and Sante Fe Railroad between Abilene and Kackley, Kansas.

From six inches to a foot of snow fell over Central and Western Kansas Saturday. A temperature of 12 degrees was forecast for Western Kansas.

Denver, April 5.—Several inches of snow fell in Denver last night and the weather forecaster predicted 15 degrees above zero and clear and cold for Easter Day.

Heavy snowstorms were reported from Western Montana and Western Colorado.

The cold snap will be general over the entire Northwest, according to Government reports. North Dakota points were getting a real taste of winter, with temperatures around 5 degrees above zero, while Wyoming reported 0 to 10 above.

Lincoln, Neb., April 5.—An Easter blizzard descended on Nebraska Saturday night.

In the southeast, south and central parts of the State the snowfall ranged from 6 to 20 inches and the wind reached a maximum velocity of 33 miles an hour.

Winsted, Conn., April 5.—A snow storm swooped down on Winsted's chic Easter parade and did considerable damage to gowns, etc. The flakes were the size of 50 cent pieces and as large as any seen during the recent record breaking winter.

Toledo, Ohio, April 5.—With street car service at a standstill, owing to the strike of car men, and with a blinding snowstorm raging all day, Toledo yesterday appeared like a deserted village.

ELKS' SPRING GALA WEEK

Johnny J. Jones Exposition, Here April 19-26 For Elks Charity Fund

The potent factors responsible for Johnny J. Jones exposition securing the 1920 contract from Alexandria Elks to furnish the amusement portion of the entertainment for their spring gala week is cited by the Charity Fund Committee in three prominent characteristics, always dominant in the make-up of this organization, namely, cleanliness, square dealing, and quality, and every person who ever attends any function where in Johnny J. Jones' name is attached readily becomes cognizant of the reasons for the phenomenal success of the stupendous enterprise.

Ed. R. Salter, the Jones publicity man, reports coming from Orlando, the winter quarters of the Jones aggregation, easily persuaded one to believe that the patrons of the Alexandria Elks Spring Gala Week would this year be regaled with a list of attractions far ahead of the excellent programs offered in the past seasons. Some of the leading features include:

Johnny J. Jones' trained animal exhibition, Johnny J. Jones' famous midget, Mabel Mack's high school mules, Superba, "Everything", "Stella," the pacemakers, the hell ship, monkey circus and hippodrome. The mechanical city the gloom dispellers, the human modus reptilla, trophies of the far north, two immense side shows, riding devices galore, Gideon's troubadours.

Frank M. Petit special agent and C. W. McCurren advance agents are now in the city making preparations for the coming of the big expisition company.

ALL READY FOR PRIMARY TOMORROW

Three Candidates in Arena For Mayoralty Honors

BIG VOTE EXPECTED

City Electoral Board Names Election Officials—Polls to Open at Sunrise and Close Sunset.

Final preparations for the democratic primary which will be held tomorrow for the purpose of nominating a mayor, four aldermen and eight members of the common council are being completed today. Every indication is that a heavy vote will be polled.

As heretofore stated the fight for mayor is the most interesting, this being a three cornered fight. The various candidates feel confident over the result and the outcome is awaited with interest. The candidates are Capt. Albert Bryan, James M. Duncan and W. J. McCaffrey.

The polls will open at sun rise, 5:46, and close at sunset, 6:36.

There also is considerable interest in the fight for common council in several of the wards. For council there are contests on in three out of the four wards. One member is to be nominated from each ward for the board of aldermen and all are without opposition.

For council the only candidates who have plain sailing are J. D. Matter and E. F. Tiver in the first ward, who

GREEN STOCKINGS

No, this not an advertisement of verdant hosiery at marked-down prices in odd sizes. It is, however, the announcement of a bargain in evening entertainments, and we don't hesitate to "cry our wares" to the discerning readers of our local daily. Now for the bargain—Wednesday, Thursday and Friday night of this week will be "play nights" at the High School "Green Stockings" is the name of the play and it is being put on by the senior class. All you need to get in on this is a ticket. That sounds simple enough, but if you put off getting it too long, you may be left out. High school students, as well as those of the grades are selling the tickets and will be glad to supply you. "Shop Early" is our advice in this matter.

Gloomy Easter

Rain Halts Egg Rolling and Taboos Sunday Parade

The weather man today prevented egg rolling at George Washington Park and the kiddies, as a result of the heavy downpour of rain, were compelled to do their egg rolling indoors.

Rain yesterday also spoiled the Easter parade. A nasty drizzling rain in the afternoon kept the citizens indoors and it was the gloomiest Easter weather Alexandria has experienced in many years. The Easter programs at the different, churches were carried out and despite the weather conditions large congregations attended.

Special musical programs were given at most of the churches by augmented choirs and at many there were handsome decorations. A large number of new members were received at the M. E. Church South and also the Second Presbyterian Church.

The main altar at St. Marys Catholic Church was elaborately decorated with Easter lilies, and the side altars with pink flowers. The decorations this Easter surpassed any in previous years.

WILSON WATCHES SITUATION

Washington, April 5.—President Wilson is giving close attention to the situation that is developing between France and Germany concerning Germany's alleged violation of the peace treaty by sending troops into the Ruhr district, it was stated yesterday.

The State Department is receiving frequent reports from Paris, and they are being sent to the President. Their nature is being kept secret.

Officials of the department are not yet prepared to let it be known what action the United States government will take, if any, in the event that France carries out her reported threat to occupy important cities in the Rhine Valley unless German troops are withdrawn immediately from the Ruhr district. It is regarded as probable that the only action this movement would take would be the granting of its moral support to the Supreme Council.

WINS FATHER'S RELEASE

Former New York Financial Operator to be Pardoned by Kentucky Governor

Lexington, Ky., April 5.—George Alexander, well known in New York's social and financial circles, when his financial standing was high, and who spent five years in the Kentucky penitentiary for wrecking the George Alexander State Bank at Paris, Ky., will be pardoned today by Governor Morrow.

Alexander was convicted in 1911 when his bank failed and a shortage of about $500,000 was discovered. He was sentenced to not less than one nor more than ten years on each of the seven charges of which he was found guilty.

The release of the banker, who is about seventy years of age, will be due to the efforts of his daughter, Miss Kate Alexander, whose campaign in his behalf was effective.

BOY SEES MOTHER SLAIN

Tells Detectives That Man Charged With Crime Used Axe Handle And Baseball Bat

New York, April 5.—Angelo Rocco, an Italian, was arraigned in the Jamaica police court yesterday, charged with homicide, and held without bail for the grand jury following the death in the Jamaica Hospital yesterday morning of Mrs. Mary Rupp.

Mrs. Rupp was taken to the hospital on Saturday suffering from bruises and cuts on her scalp, the side of her head and her right arm. It was believed at the time that she had fallen down stairs. Police who went to her home yesterday found Rocco in a drunken stupor. They questioned the woman's son, Genero, 12, who, detectives say, told them his "foster father," Rocco, killed his mother.

The police quote the lad as saying the pair came home Saturday, and after drinking some homemade wine, became quarrelsome. Rocco, they say the lad told them, threatened Mrs. Rupp, who started to leave the house and was caught and dragged to the cellar by the man, who there attacked her with an axe handle and a baseball bat. The boy said, according to detectives, that Rocco swore him to secrecy and threatened to kill him if he told what had happened. Detectives found the axe handle and a bat spattered with blood.

FLAMES, WEAPON OF SINN FEINERS

TAX BUREAUS SUFFER

Belfast Cut off, While Masked and Armed Men Become Pyromaniacs.

London, April 5.—Easter Sunday, fourth anniversary of the bloody uprising that led to the foundation of the island-wide movement for an independent republic, is nearing its end without the threats of a repetition of the revolt having been carried out.

However, incendiarism throughout the whole of Erin beginning Saturday evening, is the Sinn Feiners' reply to the government's Easter display of force. With the same cunning, system and secrecy with which the many raids on police and military have been carried out during the last few months the rebels—or a group of extremists—applied the torch to government buildings and offices, especially tax bureaus in Dublin, Belfast, Cork and many other towns.

Police and fire guards were kept very busy throughout the day, though in most instances they came too late to save important official records from perishing in the flames.

Belfast was isolated from the rest of the world. The land wires and cable to England were cut, and the only means of communication was the telephone. The Grand Central Hotel, in which are located the Pensions, Labor and other departments and the Bank of Ireland, were entered during the night and a large number of documents were destroyed. The raiders then tried to burn the buildings, but a fire brigade prevented this.

OBLIGED TO RAISE PRICE

Deny Insinuations That They Are Using Agreement to Boost Price of Product

Washington, April 5.—Insinuations that bituminous coal operators would take advantage of the 27 per cent wage increase to miners, agreed upon by the joint conference last week, to make excessive advances in prices to the public, were declared to be absolutely groundless in a statement last night by the operators' association.

"The operators, unable to absorb the increase, are obliged to raise the price of coal at the mine," the statement said.

SEIZED BY EMPLOYEES

Peking, April 5.—Telegraphic communication has been established between Peking and Petrograd, Archangel, Novo-Tcherkask and Astrakhan. At Harbin the railway employees have taken over management of the Chinese Eastern Railway, with the announced object of restoring order and removing the line from politics.

The men have formed an executive committee to control operations pending appointment of a new manager. They are insisting that employees discharged for political reasons be reinstated and funds taken from their unions returned.

Warsaw, April 5.—Polish successes are reported along the Slutzk River, where a Bolsheviki attack has been repulsed. General Litowvski's forces captured 300 Bolsheviki, four guns and much ammunition and other material.

The "Reds" attacked in the swampy country in the region of Slaweczna, which is southwest of Moryhz and also between Zwaihel and Baranowsky, after a day of fighting the Bolsheviki were driven eastward.

On the northern front, in the region of Lake Woron, which is just south of the River Dvina, the "Reds" have also launched an attack. The fighting is continuing.

100,000 TO LEAVE

Prague, Czecho Slovakia, April 5.—More than 100,000 Czecho Slovaks from the United States are expected home before the end of the summer, according to information received by the American Red Cross, which has been asked to make arrangements for their reception. Most of the returning men are skilled workmen, and it is said they will bring with them their savings, averaging $1,000 each. Their homecoming is being eagerly awaited, it being anticipated that they will aid greatly in the economic rehabilitation of the country.

The Grace Social Home of 1436 Fleet St., Baltimore, has some open dates for July, August and September for Sunday ball games with teams whose average is eighteen years old to be played in this city. Constantinople, April 5.—The Cabinet of Sali Pasha, which resigned March 26, stepped out because of pressure brought upon the government for the surrender of the British colonel, Rawlinton, control officer at Erzerum, and Captain Forbes, control officer at Amasia, according to reports current here.

Both officers were seized by the Nationalists, and it was rumored that the British had threatened to resume war against Turkey unless they were surrendered.

Cincinnati Friends Say Frederick J. Manning is Her Fiance

Cincinnati, April 5.—The engagement of Miss Helen Herron Taft only daughter of former President Taft, was announced by her friends in Cincinnati yesterday. A definite announcement to that effect has been made, it is understood the wedding will take place in July.

Miss Taft, who is acting president of Bryn Mawr College, is said to be the youngest president of any college in the world. After President and Mrs. Taft left the White House Miss Taft took her M. A. degree at Yale in 1917 becoming dean of Bryn Mawr the same year, and for the last eighteen months she has been acting president. Miss Taft is 29 years old.

THE COMING BLOODLESS EASTER

The triangular race for Mayor of Alexandria has about reached its crisis. The count tomorrow night will show which of three citizens the majority of the democratic voters of the city desire to be the executive. The candidates are well known. One has at times been identified with public life and is familiar with the affairs of the city, another has long been in the front ranks of the commercial life of Alexandria, while the third is a democratic ex-precinct member of the Common Council who has seen school board service, talking by the manner latter he may be truly said that the irrepressible combative fighting will claim honors. The candidates have made a clean cut fight, and there has been no "mud throwing."

No serious issues are involved in tomorrow's election. It is simply a question of preference. The suffragans must select one of the three.

There have been times in the history of Alexandria when the position of Mayor went begging, and in some cases the position has graced the man, not the man the position.

It is erroneously supposed that the chief executive of the city has but little to do. If the position is given the attention demanded there is always something to do, as every one having a grievance unfolds his tale to the Mayor. Many of his patrons are women and the Mayor is often forced to listen to elongated recitals which are calculated to tax the patience of Job. Besides he has many thousands of dollars to collect in licenses, for the faithful performance of which he is compelled to give a bond of five thousand dollars. This duty alone requires much time and patience.

He is constantly receiving communications from state and government officials requesting information on this and that subject. Being a part of the legislative branch of the city government, he must necessarily study closely every measure adopted by the City Council before affixing his signature.

It is far from being a bed of roses, as all who have filled the position know.

STATUS OF TROUSERS

A man (a former offender) was arrested in this city Saturday on the charge of being drunk. When inspected at the station house two bottles of so-called whisky were found in his pockets. After sleeping off the effects of liquor, he produced a five-dollar bill which he tendered as collateral for his appearance this morning, but was non est inventus when the case was called.

Under the state law, five dollars is the maximum fine, but, according to the Volstead amendments to the prohibition bill, liquors found in one's possession while away from home is actionable.

A contemporary in speaking of the status of the hip pocket says:

"By the decision of a Federal judge in Brooklyn the important question of the status of the hip pocket as a place of storage for alcoholic drinks has been brought nearer to a final answer. Although the court rules that 'the difficulty, if not the actual impossibility, of preventing general traffic in intoxicating liquors, unless the possession thereof is confined to the home of the individual is so apparent as to need no comment,' those who feel that their freedom of action is unduly infringed upon by such a restriction will doubly be content with any judgment short of that of the United States Supreme Court itself.

"Indeed, there are aspects of this Brooklyn decision which give occasion for speculation. The defendant, in the case pleaded that the Constitution protected him from 'unreasonable searches and seizures,' but the court held that 'it was entirely proper to examine thoroughly the person and effects of a man in an interest therefor.' This is sound sense as well as sound law. But the point is a man may be sober and not under arrest can be seized and searched on suspicion of hip pocket contraband seems to be very open to argument. It is obvious that in the absence of visible evidence, many innocent persons would be subjected to humiliation by investigations of this sort.

"Still another point is left in suspense by the court. The law demands the confiscation of any vehicle in which liquors are illegally transported. Is the hip pocket a vehicle? Or does the entire garment come within this category? An obligation to seize as well as search the trousers of the criminals who carry flasks with a liquid content of more than one-half of one per cent alcohol would be put in the majority of cases only with extreme difficulty. The status of trousers must obviously be defined, like other matters, by the court of last resort."

AN OVERCAST EASTER

The goddess of spring, did not smile on animated nature yesterday. Rain began to fall long before the break of day, and a northeast wind with occasional showers prevailed throughout the day. Cloudy conditions and rain continued last night, and early this morning the clouds became heavy from which flashes of lightning shot. Thunder followed, accompanied by a heavy downpour of rain, followed by the promptications were that a near [illegible] colder weather was coming on that before night this section would be experiencing the effects of the fireback of winter. [illegible] struck localities north and west of Alexandria. Of course egg rolling today (Easter Monday), has been out of the question.

Probability of rain on Easter is practically all the Southern States and much colder weather in some sections were forecasted by the Weather Bureau.

A storm of marked intensity was central yesterday morning over the Texas Pan-Handle and was moving eastward. This storm, the weather experts said, would cause general cloudiness and rains over nearly all parts of the country east of the Mississippi River by Sunday night. There was some probability of snow in the region of the upper Great Lakes. In the South the advancing storm will cause a decided fall in temperature in the East Gulf States and other localities.

The weather predictions for the week beginning today are:

Rains at the beginning of the week and fair, cold weather thereafter. Frosts are probable the first half of the week in the interior regions.

AN EASTER MESSAGE

Americans will be glad to learn from the President of Austria's Easter message that the food supplied from this country has helped to make the festival one of joy for many poor families. By all accounts the situation throughout the country, but more particularly in Vienna, has been one of extreme want and suffering. No nation has paid more heavily for the war than the nation that began it.

"The [illegible] perhaps poetic justice. Yet Austria has never learned or won from us the hatred which is still felt for Germany. Furthermore, though more severely tried, the Austrians have shown a far better spirit than the Germans since the war ended. The help for which they are so grateful has not been grudgingly bestowed.—Phiadelphia Inquirer.

FINANCIAL CRISIS

Expenses Exceeded Income by $200,000,000 Past Nine Months

Washington, April 5.—Government expenditures have exceeded the revenues "from all sources" by more than $200,000,000 during the first nine months of this fiscal year, and the reduction of $706,000,000 in the floating debt last month is but a "temporary" condition, Representative Mondell, Wyoming, Republican leader, declared yesterday in a statement. Economy alone, he said, could avert a calamitous crisis.

Immediately upon the "temporary reduction" in the floating debt, Mr. Mondell declared the Treasury was "in the market for further loans and this month must dispose of a large volume of temporary certificates."

COULD NOT STAND STRAIGHT

It does not take long, when the kidneys are out of order and not doing their work properly, for poisonous acids to accumulate in the system and cause aches and pains. [illegible] D. Diamond, 2305 W. 30 St., Cleveland, O., writes: "I caught cold and it settled in my kidneys. My back and sides were so lame and sore I could not stand straight. I ate Foley Kidney Pills and testify to their helping power."

Don't Let Catarrh Drag You into Consumption
Avoid Its Dangerous Stage.
There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air passages, and the hawking and spitting and other distasteful features.
The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then threaded consumption is on your path. Your own experience has taught you that the disease cannot be cured by sprays, inhalers, jellies and other local applications.
S. S. S. has proven a most satisfactory remedy for Catarrh because it goes direct to its source, and tends to remove the germs of the disease from the blood. Get a bottle from your druggist today, and begin the only logical treatment that gives real results. For free medical advice write to Medical Director, 104 Swift Laboratory, Atlanta, Ga.

RESTORATION OF PALESTINE

Learning to rebuild Palestine by aiding in the restoration of devastated Northern France, is the remarkable means proposed by Polish Jews to reach the Holy Land as soon as possible and aid in the establishment of the Jewish National Homeland.

The plan, now under consideration by the French and Polish Ministries of Commerce and Labor, was proposed by two Galician Jewish leaders, Dr. Alexander Hausman and Dr. Herman, both journalists of Lemberg, and has been enthusiastically approved by over 100,000 Polish Jews, according to a report received by the Zionist Organization of America, from "Le Peuple Juif," official newspaper of the French Zionists, published in Paris.

These Polish Jews, according to the report, having no means with which to secure transportation to Palestine and lacking the practical training essential to the efficient rebuilding of the Holy Land, agree to spend a minimum of one year, aiding in the restoration of Northern France, if at the end of their term of service, the French government will give them transportation to Palestine.

"In the Jewish centers of Poland, many thousands of signatures have already been secured to a memorial urging the French and Polish governments to adopt this plan of fulfilling the hopes of these ardent Jews and at the same time assisting France in her problem of reconstructing the northern part of France," the report reads. "There is every chance that it will be favorably acted upon by both governments."

Dr. Hausman explains his plan as follows: "France, with her present acute shortage of labor, needs several hundred thousand laborers for the rebuilding of its ruined provinces. The destitute Jews of Poland, eager to reach Palestine, need transportation facilities to the coast and above all, a preliminary training of at least one year in building construction, road building, agriculture and all kinds of pioneer work.

"A pact with the French government, dispatching labor battalions of Polish Jews to Northern France, is, under the circumstances, a providential arrangement. The major part of the wages, after a term of service has been agreed upon, is to consist of free transportation to Palestine."

To handle the administration of this vast army of workmen, Dr. Herman proposes that it be organized and directed by the Zionist Organization, which should assume full responsibility and make the necessary agreements with the French government.

"Le Peuple Juif" points out that these 100,000 Jews are almost all destitute because of economic boycott, pogroms and the present condition of Poland and that they are practically all city people with no knowledge of the practical problems of reconstruction to be faced in restoring Palestine.

These 100,000 Jews who have volunteered for labor service in France, comprise but one-fifth of the total number of Jews ready to leave at any time for Palestine, according to the Zionist Organization, which has a report from Dr. Jerzy Rosenblatt, member of the Polish Diet and now in New York conferring with Zionist leaders, that 500,000 Jews will emigrate to the Holy Land as soon as the British mandate is established and Palestine made the Jewish National Homeland.

BANDIT'S LIFE ENDED

Kit Dalton, of Jesse James Fame, Dies With Boots Off

Memphis, April 5.—Kit Dalton, the last survivor of the famous Jesse James band and the Quantrell guerrillas, will no longer be seen on the streets of Memphis clad in the uniform of a Confederate officer. He died Saturday, with his boots off, penniless and at the age of 78, in a boarding house here. Broken health accomplished what Federal officers were unable to do during his 17 years of outlawry.

The story of Dalton's picturesque life is more thrilling than any work of fiction depicting bold robberies. He started his role as bandit under the leadership of the James boys, taking part in the hold up of thirty six trains, eight stage coaches and the robbery of twenty-one banks. He plied the same means to a livelihood with the Quantrell guerrilas and the Bass gang of Texas.

Dalton forsook banditry to become a gambler in Memphis when the Federal goernment granted amnesty to all civil war raiders. Later he reformed and became an evangelist.

TO TAKE TRIP TO MOON

Inventor Goddard, However, Says First Passenger Must be Man of Iron

Chicago, April 5.—There are at least nine men in the United States who are willing to take a trip to the moon aboard a skyrocket. Professor Robert H. Goddard, head of the physics department at Clark College Worcester, Mass., has their applications in his pocket, he said, on his arrival here Saturday.

"But the construction of all these men are human and therefore too fragile to be acceptable," said the professor. "The first man who goes to the moon on a rocket will have to be an iron man."

Professor Goddard is the inventor of the multiple burraled, sixty-plus horsepower augmented and magnified skyrocket. He has just completed working models on the $5,000 fund granted for the experiment by the Smithsonian Institute. A rocket capable of reaching the moon, Professor Goddard estimated, would cost around $100,000.

"POOR MAN'S LAWYER" HAS ITS FIRST WOMAN ATTORNEY

"Legal advice," said Miss Dorothy Frooks, attorney for the Salvation Army, at National Headquarters, New York City, "ought to be given away for the asking. It ought to be dispensed like religion and medicine."

MISS DOROTHY FROOKS

It is the reason why Miss Frooks chooses to cast her legal career with the Salvation Army, to aid that organization in the part of its work in which it serves as "The Poor Man's Lawyer." That is the reason why, armed with a legal degree, dated 1918, an admission to the bar, on which the ink was scarcely dry, 22 years of youth and more than ordinary good looks, she opened her office at Salvation Army Headquarters, 122 West Fourteenth street, New York city.

Miss Frooks has made good. She has untangled many family snarls without resorting to the divorce courts. She has obtained justice for tenement dwellers who have been preyed upon by landlords, installment collectors and loan sharks. She has helped pay off mortgages, settle wills and draw up contracts. She has defended criminal actions in court and protected the rights of men and women who were prevented by iron bars and prison gates from managing their own affairs.

But that's not all. It was found that an additional legal adviser was needed by the Salvation Army to look after its $10,000,000 worth of property—orphan asylums, maternity hospitals, industrial homes, day nurseries, schools—scattered throughout the length and breadth of the land. Miss Frooks was given the work. Again she waded triumphantly through the task.

It is no uncommon thing for the Salvation Army to receive urgent calls from the poor for legal advice and assistance, and when the cases are worthy the Army obtains competent lawyers and sees that justice is obtained. This is one of the incidental developments of the Army's many activities which bring it into intimate contact with the poor, the unfortunate and the misfit the country over.

Attorneys in many cities make it a practice to give their services free to those recommended by the Salvation Army. Miss Frooks is the first woman lawyer to "hang out her shingle" with the Army.

Tree Owners Attention!

We have successfully operated throughout this city and vicinity for four months during which time it has been our pleasure to serve many persons. The confidence placed in us and our work was such as to make it expedient that we remain longer than we first anticipated, but we are now forced by pressing contracts in other cities to leave in the near future.

It is our ambition and earnest desire, however to serve every property owner in Alexandria having work of this nature, and we are taking this means to request that those whose trees are still in a state of neglect get into communication with us within the next few days. Our treatment is efficient to the extent of making it unnecessary that further work be done for from five to ten years. We do not know of one dissatisfied client among the many we have served.

This is our final advertisement this year so, we again urge those people who appreciate trees, to call on us for estimates or advice.
This is the proper and best season for work of this nature.

CONCESSIONS ARE MADE

Roanoke, Va., April 5.—With the return to work Saturday and Saturday night of most of the 12,000 employees on the Norfolk and Western Railway, who have been on a strike for the past week operations on the road were described by officials as practically normal. It was announced that all employees who walked out will have resumed work this morning.

While railroad officials and union heads continued their silence as to the terms under which the strike was settled following a ten hour conference which concluded early yesterday, it was learned from reliable sources that "important concessions" were made by both sides, in connection with the demands of the railway clerks that two non union employers be discharged because of alleged insults to a young woman.

In addition to a provision that the two clerks be transferred from their present positions to another department, it was learned that the union heads agreed that in the future organized employees on the road will not walk out without first submitting to a thorough investigation of their grievances.

NEGRO LYNCHED

South Carolinians Storm Jail While Police Seek Other Man

Spartanburg, S. C., April 3.—George Robertson, a negro, 28, was taken from the city jail at Laurens, S. C., Thursday night at midnight by a mob and hanged to a railroad bridge on the outskirts of the city.

Reports reaching here say that three white youths about 18 years of age became involved in a dispute with another negro. Robertson appeared on the scene and took the part of the negro the one first involved, leaving the scene. Robertson is said to have drawn his knife and cut the three boys. City police interfered and placed Robertson in jail then starting a search for the other negro and while this was in progress the mob stormed the jail, secured the prisoner, and rushed him to the bridge, where he was lynched. After he had been hanged, the body of the victim was riddled with bullets.

The coroner has empaneled a jury and an investigation is being conducted, but no evidence has been brought forward to connect any individual with the crime.

MANY TOWNS ATTACKED

Sixty-One Police Barracks in Ireland Destroyed and 21 Revenue Offices Fired

London, April 5.—The Sinn Fein plan to destroy all British records and plunge the country's administration into confusion was put into operation Saturday night when fires were started in official buildings all over Ireland.

At a late hour last night this authoritative summary of the week-end havoc throughout Ireland was given:

Sixty-one police barracks were destroyed, and twenty-one offices raided and their contents burned.

Belfast was isolated from the rest of the world. The land wires and cable to England were cut and the only means of communication was the telephone.

WALKS TO DEATH

New York, April 5.—Henry Emanuel, who liked to take his exercise on the roof of his home, because he was blind and feared crowded streets, went for his usual stroll last evening and his dead body was found in the yard a short time later.

INVASION AT ONCE

Occupation to Continue Until Germany Stops Sending Men Into Ruhr

Paris, April 5.—French troops will begin gradual occupation of the right bank of the Rhine within twenty-four hours, without awaiting approval of the other allies, it was learned yesterday.

This occupation by French troops will continue until Germany stops sending troops into the Ruhr district. Germany has been notified of France's decision on this point, and uness withdrawal of German troops has begun within the allotted time it was feared clashes might ensue between French and German forces in the Ruhr district.

While the allies have been notified that France intends to take this action, it was stated their approval will not be necessary, as France considers presence of German reichswehr in the Ruhr as a menace to her national safety.

It was officially announced today that the military measures contemplated by France have as their sole purpose forcing of Germany to respect the treaty, which prohibits the presence of German troops within fifty kilometers of the east bank of the Rhine. A dispatch from Cologne said the German Reichswehr had occupied Ruhrort following fighting with red forces.

Hood Prices, being based absolutely on actual costs of highest quality materials and labor, are consistent with Hood Quality and Road Service

The Hood ideal of tire value and service — greatest average mileage actually delivered at lowest cost per mile — remains unshaken by unsettled conditions which are arising to confront and confuse both tire dealers and tire users.

With costs of materials and labor at a high point, with the cost of cotton showing increase, with labor constantly increasing in cost, with rubber only slightly weakening, and with overhead reduced to a point of efficiency seldom equaled in the tire business, Hood will maintain present prices and quality.

Any reduction under the above conditions would necessitate a reduction of quality or quantity of materials or of both. *We will not pull down our standard*—it has made Hood Tires famous the country over as the Quality Tires of America.

The quality of Hood Tires will be maintained.

Hood prices will continue to be—as in the past—THE standard by which *real* tire values can be safely judged, for to-day the *price* of a tire is the only true representation of comparative value—guarantees have come to mean nothing.

Ask us to show you records of Hood average mileage of last year. Let us prove to you WHY price, divided by miles actually delivered, makes the Hood the most economical tire you can buy.

Can you afford to be without Hoods?

Hood Tires give maximum miles at minimum cost. A bona-fide guarantee with every tire. Fabric guaranteed 8,000 miles; cord guaranteed 10,000 miles. Cut your car expense by equipping with Hoods.

VIRGINIA NEWS

Four thousand families in Danville nearly went without breakfast Saturday morning as a result of a sudden strike of laborers at the city gas works at 11 o'clock Friday night, this decision being reached when the containers were at their lowest ebb. The ten men who constitute the night force had been showing by their recent diffidence that trouble was brewing. They appeared before the foreman and said that they were striking for $5 a day more than they are receiving now. The foreman declined to yield and telephoned the superintendent, Frank Talbott, who was attending a good government meeting. He went to the works at once and addressed the workmen pointing out that he did not intend to allow further imposition on the city works; that they could quit if they wanted to.

Suffolk is disturbed over bad census taking. No official figures have yet been given out, but there is abundant evidence that the census was taken in a careless, even slovenly manner and that hundreds of names have been left off the lists of the takers. The Chamber of Commerce has taken the matter in hand and the secretary has reason to believe that the chamber's request for a complete recount will be complied with. If it is the officials of the chamber will see to it that a sufficient force is put on the job and that no whole families shall be overlooked as has evidently been the case in the recent count.

Miss Anna L. Jones was arrested Friday night in Norfolk, charged with embezzlement of a trust fund amounting originally to $7,000.. She was formerly one of the leading business women of Lynchburg. She left there soon after America entered the war to be secretary of the Virginia Food Commission at Richmond For five years she was business manager and secretary of Sweet Briar College, resigning that position in 1906. Her accuser is Miss Elizabeth Blackford, formerly of Lynchburg, now of Washington, who allges Miss Jones misused the fund, which she controlled by power of attorney.

Four young men are locked up in a barn back of the Welfare League Home, Staunton, because they were too gallant. The youths went to church, met four girls, and gallantly volunteered to escort them home. When they reached the girls' home they went inside. And in the home was a 2 months' old baby, which is believed to have smallpox. Dr. J. B. Catlett, town health officer, heard of the visit and promptly ordered the young men confined in the barn Cots have been provided for them, and they are taking their meals with the horses.

Through the activities of Richmond police, more than 15,000 names have been added to Richmonds census. Patrolmen made a house to house canvas in each district of the city, and through their efforts added many names that had been overlooked by the government enumerators.

When Clarence E. Bowles, a ticket seller at the Union Passenger Station, at Lynchburg, struck along with other Norfolk and Western clerks, his wife promptly accepted his old position and became a strike breaker. This she did in spite of her husband's protest. Mrs. Bowles is the daughter of M. F. Kulp, the ticket agent, and she formerly worked in the office. Mr. Kulp and Mrs. Bowles will undertake to handle the three eight hour shifts in the o ce until additional help can be secured.

Mrs. Eva Boyd who was shot Friday night at her home in Danville, died early yesterday morning at the General Hospital. Bruce Wells, a former service man, was taken into custody by the police charged with the crime. It is alleged that Wells was caught shortly after the shooting scaling a fence in the rear of the dead woman's house. Police say that Wells admitted shooting Mrs. Boyd and said that they were both intoxicated at the time. He was lodged in jail where he has since refuse to make a further statement. The authorities claim that Wells attempted to borrow a pistol from a negro the afternoon before the killing. Mrs. Boyd refused to state who shot her before she died, but repeatedly called for her mother and two sons who reside in Richmond.

A school of shad was struck by fishermen in the Lower Northern Neck last week, and 40,000 were caught in one day. Packers are paying $5 per 1,000 for herring.

MAY TIE UP STOCK YARDS

Chicago, April 5.—Complete tie-up of the Chicago stock yards, throwing 150,000 persons out of employment, was threatened yesterday as a result of an alleged illegal strike of switchmen on the Chicago Milwaukee, and St. Paul railroad.

The strike was declared illegal by William G. Lee, president of the Brotherhood of Railway Trainmen, who said he would make every effort to have the men on the job today.

The carrying out of the threat of John Grunau, leader of the strikers to call out 16,500 switchmen in the terminals, unless the demands of the 700 strikers on the Milwaukee road are met, would completely tie up nearly every industry in Chicago.

STRIKE OF BARBERS

Madrid, April 5.—The general strike of barbers, decided upon at a meeting Friday night, affected the whole city, yesterday, and some disorders were caused when strikers' parades visited all the barber shops open threatening the non-union workers with clubs. The police interferred, arresting several of the men. No disposition to grant the men's demands for increased wages is being shown by the barber shop proprietors.

Barcelona also is affected by a barbers' strike. The men there have issued a manifesto saying they will open co-operatives shops Monday in an attempt to force their employers to meet their terms.

"DRY" RAIDER SHOT

Believed to Have Been Attacked For Liquor He Carried

New York, April 5.—Joseph Hanlon, a government guard, was shot through the stomach early yesterday while he was walking through Ninety-eighth Street, between Columbus and Amsterdam Avenues. Hanlon was carrying a suitcase containing three bottles of whisky which he had confiscated in the course of his duties and the police believe that his assailant shot him for the liquor.

Scanlon was taken to Knickerbocker Hospital. His wound is serious.

ARRESTED FOR BOMBING

Charged With Complicity in Chicago Strike Disorders

Chicago, April 5.—Eleven men, three of them said by the police to be officers of Chicago locals of the International Upholsters' Union, were arrested yesterday in connection with recent bombings incident to a strike of upholsters.

Seven of the men confessed to throwing bombs into six houses and slugging twenty-five foremen of upholstering factories, the State's attorney said.

The activities of the men were said to date from August, 1916 when members of the Upholsters' Union went on strike to enforce demands for a closed shop and higher wages.

According to the confession of one of the union officers, Assistant State's Attorney John M. Lowery said, $100,000 had been used by the union in its effort to win the strike.

DRIVEN FROM HOMES

Chattanooga, Tenn., April 5.—The Tennessee River had reached a stage of 42.8 feet by dark here tonight, was steadily rising and promised to reach the crest of forty-three and a half feet some time before morning. All during the hours of last night and yesterday families were being moved from their homes as the flood waters took possession. The school buildings were a mass of humanity and furniture, all worldly possessions of the refugees being carried along.

All that section including the baseball park and the acres of lowlands north of Orchard Knob, the headquarters of General Ulysses S. Grant, during the battle of Mission Ridge, was covered by many feet of water, and the residents, most of them negroes, were busy moving out all during the day. In the southern part of the city many residences were entirely submerged, while families could be seen lounging on their porches at many places with the water literally lapping over the sills. In this section also several industrial plants were inundated. All the brick manufacturing plants along the river front have been forced to shut down.

Travel by the main pike to Lookout Mountain and St. Elmo has been halted by an overflow at the latter suburb, while all roadways leading to Signal Mountain are submerged.

POLES REPORT VICTORY

FEELS INDEBTED TO CHASCO-VIN

Writes His Thanks

"I feel so very much indebted to Chasco-Vin, that I would like to tell other sufferers of my experience with Chasco-Vin.

I suffered with a cold all Winter and was badly run-down. I was not able to eat and could not do my work properly, but since I have taken Chasco-Vin my cold is entirely gone. I am gaining weight and am able to work better than ever.

After trying many so called tonics I find that Chasco-Vin is the best I have ever used."

G. W. Johns, 903 Jersey Ave., Elizabeth, N. J.

Chasco-Vin drives away that tired feeling, increases the strength and adds to the weight of all those who are puny and run-down.

THEATRES

GRAND THEATRE

All film fans, who love the unusual in photoplays, will find "In Pursuit of Polly," the latest Paramount photoplay starring Billie Burke, which is now on view at the Grand Theatre, a worth while entertainment. Miss Burke's portrayal in this excellent photoplay is one that will not only delight her audiences, but greatly enhance her reputation as a comedienne of the first class. Her leading man is Thomas Meighan, one of the best known screen players in the country. Also 9 Episode "Trail of the Octopus."

RICHMOND—The Girl From Outside

She was "The Girl From Outside." Alone and friendless, she had come into the seething midst of an Alaskan mining town. Poverty and despair were slowly crushing her when she met the five "War" boys—each one a crime-hardened thief. They fought her battles and protected her from the vipers of the North who would despoil her. To them she was the revelation of a new specie of womanhood—a pure wholesome thing to be worshipped and protected. Then they all fell in love with her and found that she had given her heart to another man. What was the outcome of this absorbing situation? See "The Girl From Outside," Rex Beach's best and most powerful drama at the Richmond tonight.

INGOMAR— June Carprice

In "In Walked Mary", North goes South and meets Southern hospitality; then South goes North and receives a somewhat frigid welcome, but when a son of the North meets a daughter of the South, on whatever soil, there is bound to be romance—and romance is exactly what Mary walked into at every turn.

"In Walked Mary" is drama—sweet, clean, wholesome drama—which furnishes an ideal vehicle for June Caprice. Mary Ann, a fair daughter of the South who has nothing left but family pride, her old mammy and an old shack for her "ancestral" home, walked into the bachelor apartment of her new friend; walked into a deception, but it wasn't until Mary walked out again that she walked into the heart of the man who had walked into her heart. It will be seen tonight at the Ingomar with chapter 6 of "The Adventures of Ruth."

DANISH CABINET RESIGNS

Socialists Continue to Clamor for Proclamation of Republic

Copenhagen, April 5.—Otto Liebe resigned the portfolio of Danish premier yesterday following an all night conference with King Christian.

Announcement was made that a new ministry would be formed immediately and that elections would shortly be held as provided in the terms of the new election bill.

It was believed Liebe's resignation was largely the result of the popular demonstration in front of the Royal Palace Saturday night when the crowd yelled "down with the King" and "vive republic." The demonstration was staged by a huge mob, which sang the "Marseillaise" and clamored for Liebe's resignation.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pains, no griping, no injury to the gums or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "logy" and "heavy." Note how they clear clouded brain and perk up the spirits. 10c and 25c a box.
